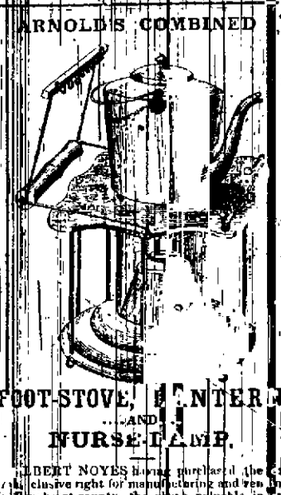
ARNOLD'S COMBINED



FOOT-STOVE, LANTERN,
—AND—
NURSE LAMP.
ALBERT NOYES having purchased the exclusive right for manufacturing and vending the above articles in Penobscot county, the above valuable inventions are now prepared to offer them to the public. As a FOOT STOVE, it answers an excellent purpose, as it can be sufficiently heated in from one minute to warm and dry the feet in the coldest winter weather, and will be found to be an indispensable article in Church or Lecture Room. It is heated by an alcohol, or fluid lamp, the flame of which is protected from every external object.
As a LANTERN, it answers all the usual purposes, and is less likely to be overset or get broken, and can be used as a house lamp with equal advantage.
As a NURSE LAMP, and in cases of sickness, it is of great advantage in keeping drinks or medicines warm, beside giving the light desired, and for cooking in small quantities. For making Gruel, it will be found very convenient, as a quart of water can be boiled to fifteen minutes, after a uniform heat in the same length of time.
In fact, the various purposes to which this convenient article can be put may be readily conceived by every one. No further description is required, as no one can misunderstand its use in general usefulness. The only thing worth respecting any indispensability for the purposes would be just to tell you what it is not, and you can call and see at once for themselves.

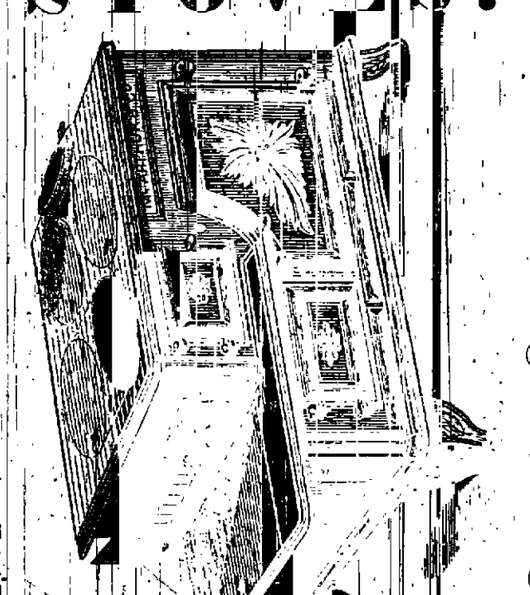
STOVES!



PHILLIPS & WITHERLY BLOCK,
Would remind their friends and the public generally that they continue to sell the most approved kinds of COOKING APPARATUS in use, among them that celebrated STOVE, the
BELL OF THE STATES,
which has not been equalled in this or any other market, and commends itself to every person who, in their selection, desire to combine *economy, convenience* and *durability*, as well as beauty of appearance. It will take the *least fuel* and accomplish the *most work* in the *least time* of any Stove ever offered to the public. Its external appearance is neat and substantial, being heavier than any other Stove of its size, and of a beautiful design. The oven is very large, extending under the fire boxes in front, and heated and ventilated in the most perfect manner. It is WARRANTED to give *perfect satisfaction*, or to be returned and the money refunded.
—ALSO—
A great variety of *STOVES* of less note, such as the Bay State Improved, Granite State, Anglo Saxon, Representative, Dustan Jewell, &c., &c., together with an almost endless variety of
Parlor, Office, Hall, and Store Stoves, and Coal Grates,
of the best patterns and qualities. *CISTERN PUMPS*, Block Tin and Lead Pipe, Sheet Lead, Iron, and Zinc; Japanned and Britannia Ware—together with a general assortment of
HARD WARE AND CUTLERY.

HEAT American and Foreign Office,
For
Securing Patents for Inventions.
AGENCY FOR INVENTORS WITH THE U. S. PATENT OFFICE, WASHINGTON.
R. H. EDDY,
No. 75 State Street, opposite Kilby St.
BOSTON.
IMPORTANT INFORMATION TO INVENTORS.
The subscriber, late Agent of the U. S. Patent Office, under the Act of 1837, determined to present to inventors, has made preparations for applying for patents, superior inducements to inventors, and offering his services on application, whereby all persons connected by him, THIRTY DOLLARS in advance, (*if successful, to be paid back by others*,) will be required by him in case of failure to obtain a patent, and the withdrawal, through him, within three months after the rejection by the Patent Office.
This Agency is the largest in New England, but through the long experience of the subscriber, inventors have advantages for securing patents, not surpassed by any which can be offered, if not superior to any which can be given elsewhere. Inventors living at a distance can have their business transacted with PROMPTNESS, ECONOMY, and SUCCESS, as if present at the Office. THE PATENTEE IS THE BEST JUDGE OF HIS OWN CASE, and as SUCCESSFUL ADVOCACY depends much upon ABILITY, he would add that he has also had many years experience, and can prove that all the usual charges for procuring patents are moderate.—The immense number of applications for patents during the twenty years the subscriber has been engaged in the business, has enabled him to accumulate a vast collection of official decisions relative to the validity of inventions. These, besides his extensive library of Mechanical and Scientific works, and his acquaintance with the Patent Laws of the United States and Europe, enable him to offer to inventors facilities for obtaining patents, not to be found elsewhere.
Caveats, Specifications, Assignments, and all Papers necessary to the procural of patents in this country, prepared, and advice respecting foreign patents, and infringement of patents. All necessary drawings furnished for one dollar. Assignments recorded at Washington, in Great Britain, France, and other foreign countries, through agents of the highest respectability.
R. H. EDDY, *Solicitor of Patents*.

TESTIMONIALS.
I have examined the official Correspondence of R. H. Eddy, Esq., with clients, during the time he was in practice at the Patent Office, and have no hesitation in saying that his business was conducted with promptness, ability, and fidelity. Those who were acting in the capacity of agents for procuring patents, and who had much business to transact at the Office, found it greatly to their advantage to employ Mr. Eddy, rather than to transact their business themselves, as he was perfectly familiar with the manner of doing business at the Office, and could do it with much more dispatch than strangers could possibly do. I regard the services rendered by Mr. Eddy to inventors as highly important and valuable, and I have no hesitation in recommending him to them as a gentleman of integrity, and one in whose hands they may safely confide their business before the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents.

I have known Mr. Eddy for many years, and have held the office of Assistant Commissioner of Patents during the whole time he was connected with the Patent Office. Mr. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the Office, and from the knowledge I have had of his manner of conducting business, and the information he has possessed in relation to the principles and practice of the Office, I have no hesitation in recommending him as a gentleman of capacity and integrity, and one fully competent to prosecute with fidelity and success applications for patents.

Commissioner of Patents.

New Type and a New Press.
GREAT REDUCTION TO CLUBS.
PAYMENT INVARIABLY IN ADVANCE.
ENCOURAGED by the very liberal patronage heretofore bestowed upon the JOURNAL, and in accordance with the spirit of the present age, the proprietors have decided to reduce the price of the *Weekly Journal* to clubs, to the following rates:
One copy, one year.....$2 00
Two copies, one year, to one address.....3 00
Five copies, one year, to one address.....6 00
Ten copies, one year, to one address.....10 00
PAYMENT TO BE MADE
INVARIABLY IN ADVANCE.
At the expiration of the time for which advance payment has been received, the paper will in all cases be stopped. By the adoption of the cash system, the employment of agents to collect subscriptions will be unnecessary, and their expenses *will be saved to the subscriber.*
THE BOSTON JOURNAL
has for many years conferredly stood at the head of the newspaper press of New England. The position was attained not through any special effort on the part of its publishers to increase the circulation by agents or other of the usual means, but because it has proved to be a paper as every moral, intelligent man in the community might with propriety introduce into his family circle, to be read by his children, and from which he might draw for them both instruction and entertainment. With such a character it has earned the position it occupies; and the fact that its circulation is much larger than any other paper of the class in New England, is the clearest proof of the estimation in which it is held by the reading community.
It is our purpose now to greatly extend the circulation of the *Weekly Journal*. Preparatory to doing this, we have procured
New and Beautiful Type,
with which to print it and have also ordered one of
Hoe's Six Cylinder Fast Presses
with which we can print FIFTEEN THOUSAND COPIES AN HOUR. (This press will enable us to hold back our forms to a very late hour for important news, and yet to work off the edition in season for the mails. With this improvement in our printing department, we believe we can give our readers as handsome a paper as is printed in New England. The general character of the paper has proved so acceptable that we shall make no change, but will, and will be, emphatically
A Family Newspaper.
We intend that it shall be a complete record of the events of the age in which we live, that the active and careful reader of its pages shall be able to gather from them accurate and reliable information in every branch of interest to him, as a man and a citizen, morals and religion, in their influence on home and home hands, and that they shall be free from the influence of any sectional party, whether it originate in politics or religion, or any other source. To collect this intelligence from the thousand different sources where it is to be sought, to separate this which is worthless from that which is valuable, and to arrange and present it to the reader in a concise and intelligible form, is a work requiring not only a great expenditure of money, but also great experience. We have the services of MEN EDUCATED FOR THE BUSINESS, devoting their whole time and attention to the JOURNAL, and we shall spare no expense to enable them to do their work in the most thorough manner.
THE COMMERCIAL DEPARTMENT of the JOURNAL is second to that of no other weekly paper in New England. It contains a carefully corrected PRICE CURRENT, REVIEW OF THE MARKET for the week, stating the amount of sales in the different articles of merchandise, and the situation in prices, and a paragraph of the MARKETS, original reports of the principal markets, Commercial CARTE MARKETS, the NEW YORK CATTLE MARKETS, THE NEWS, &c. The corps of reporters employed on these departments, by very extensive and costly preparations, have attained a high degree of excellence, and they are now acknowledged by the leading commercial men and editors throughout the country to be the most prompt and reliable. In short, we flatter ourselves that the COMMERCIAL DEPARTMENT of the JOURNAL is now second to that of no other weekly paper in New England. It contains a carefully corrected PRICE CURRENT, REVIEW OF THE MARKET for the week, stating the amount of sales in the different articles of merchandise, and the situation in prices, and a paragraph of the MARKETS, original reports of the principal markets, Commercial CARTE MARKETS, the NEW YORK CATTLE MARKETS, THE NEWS, &c. The corps of reporters employed on these departments, by very extensive and costly preparations, have attained a high degree of excellence, and they are now acknowledged by the leading commercial men and editors throughout the country to be the most prompt and reliable. In short, we flatter ourselves that the COMMERCIAL DEPARTMENT of the JOURNAL gets the cream of the LATEST NEWS of the country, and is enabled to place it before its readers in the most condensed form, and in the best manner for their ready reference. In short, we flatter ourselves that the COMMERCIAL DEPARTMENT of the JOURNAL gets the cream of the LATEST NEWS of the country, and is enabled to place it before its readers in the most condensed form, and in the best manner for their ready reference. In the MISCELLANEOUS DEPARTMENT we shall make provision for the entertainment of the family circle, by the publication of such *choice selections from the current literature of the day* as shall be found to interest the heart, while the latest intelligence, and the passing news, will be a prominent feature in this department.
THE BOSTON DAILY JOURNAL
(Morning or evening edition, as may be desired,) is sent to subscribers by mail, in any part of the United States, for SIX DOLLARS A YEAR. By our extensive and recent arrangements for East Prices we are able to compete successfully with the best *established* city papers, and supply subscribers promptly. We invite all to test the merits of the DAILY JOURNAL, and we shall spare no pains to deserve a liberal share of public patronage.

THE TREASURER & HIS MEMBERS.—A DIFFERENCE OF OPINION.—The State of Maine and the Bangor Journal do not agree in their estimate of the importance of the mare's nest in the Treasury, discovered by Mr. Barnes of the Senate. The Cumberland organ of the Strait regards the reception of interest money on deposits by the State Treasurer, as "corrupt" and unjustifiable, while the Bangor Journal is compelled to regard the interrogatories proposed by Mr. Barnes, as uncalled for and inappropriate and thinks, if the Treasurer has faithfully accounted for all the money committed to his charge, he has done all that should properly be required of him. The Journal's view is undoubtedly correct, and the attempt to make party capital against an officer of the late administration, out of this almost universal usage of the Treasurers, will most signally fail. Even Mr Farley could not entirely back up the inconsiderate Senator from Cumberland in this matter.

In the first place, Mr. Davis, the late Treasurer, if he has taken a premium from any bank, on the State deposits, has done no more than his immediate democratic predecessors have done before him, without question of its rightfulness, and secondly, the act itself could not be strongly condemned —considering the fact that the Treasurer gives very heavy bonds, has a small salary, and is responsible for all the money of the State, which passes through his hands. If he saw fit to look up his balances in a safe treasury of his own, and permit the money to lie idle, nobody would have a right to complain, and yet the State would receive no interest upon it. If, on the other hand, he chooses to deposit in banks which may pay something for the use of the money, he does so at his own risk, not at the State's, and it is certainly not very improper that he should take the premium in offset. It is a matter entirely of his own judgment, how he will provide for the keeping of the funds and all that the State can require of him or his bondsmen is to make the funds good. If the Legislature see fit to require the Treasurer to look up the money in the vaults of the Treasury it will become necessary to treble or quadruple the Treasurer's salary for no man in his senses will otherwise agree to take the great risk and responsibility of the position and if this is done, it will be so much added to the expenses of the State, without the benefit of interest on a single dollar of the funds. If, on the other hand, it requires the Treasurer to deposit the money on interest, for the benefit of the State, it must be done at the *State's* risk not at the Treasurer's—and it would be but a short time before there would be serious losses,—to say nothing of the virulent competition and corruption in management which would ensue among the banks to get possession of the public monies

Report of the Superintendent of Common Schools of the State of Maine.

We have before us the annual report of Hon Mark H Dunnell the Superintendent of the Common Schools in Maine. It is a work of much interest to all who are interested in the Common School system of the State, and the general subject of education. The industry, intelligence and zeal may say enthusiasm, with which the Superintendent has discharged the many and varied duties of his office, are worthy the highest commendation, and prove his eminent fitness for the responsible position. During the year there has been an increasing interest in the schools, the people have raised fifty four thousand dollars over the amount required by law for the support of schools, and the State has distributed sixteen thousand dollars more than last year. Many new and elegant school houses have taken the place of the old and dilapidated. The services of teachers have been better rewarded, many villages have adopted the plan of graded schools, the demands are more and more urgent for better teachers, and the people in all parts of the State readily give their friendly assistance in any plan which has for its object the greater efficiency of the public schools

We have not the space to give in our columns much of the interesting statistics, valuable suggestions, and interesting facts contained in this report and must content ourselves with a glance at a few of them

There are, in the State, 238,248 between the ages of four and twenty one years. The average number attending winter schools is 142,220 average attending summer schools 123,641 Raised for schools $333 019 76, paid by State $54 398 96 Received from local funds $16, 990 56 Expended for private schools $23 848 Aggregate amount expended for school purposes $491 060 29

Penobscot county has the largest number of legal scholars—27,554—of any county, and has also a greater excess of money for support of schools than any county—$14 200 —of which excess Bangor contributes nearly $10,000

It is a cause of great regret that there is a falling off in the attendance of scholars between the ages of sixteen and twenty one years, the most important period in order to fit them to be good citizens of the state, and to be intelligent and virtuous, and prepared for successful action in any vocation in life

During the year, Teachers Conventions have been held in every county in the State, with competent instructors, and at all of them the Superintendent was present, with the exception of the county of Hancock

The subjects of text books and of school houses, are discussed with much ability.

The evils of small school districts are pointed out with great clearness.

The grading of schools is commended in terms fully warranted by all experience in those places where it has been adopted.

The work of improvement in public schools is evidently going forward with increased force, and reports, like the one before us, are well calculated to give additional impetus to the movement. As there is no means for placing a report in every family in the State, as we could wish there were, we hope to find opportunity to give some of the leading suggestions, and if the conductors of the press generally will do this, they will help forward one of the greatest and best interests of the State and the people.

There are threatenings abroad that the rank and file of the Strait Whigs will refuse to be treated like "chattels" by the democratic party for the personal benefit of a few of the leaders. Among other indications to this effect we notice the following significant paragraph in a letter from Portland to the Boston Courier, under date of Jan 8th.

Speaking of the Strait Whigs of Maine, the writer says, "Their leaders, anxious for office and political distinction, may give their adherence to the "Union party," but the men who compose the party, who throw the votes, are, unfortunately for the success of the designs upon them, men who are accustomed to think for themselves and vote as they think. Their abhorrence of the institution of slavery, and their love of their old and long-tried principles, will set them in opposition to the Democratic party."

Either the Democratic or the Republican party must succeed at the next election. Let the Strait Whigs say which of these parts is best represents their old and long tried principles

MACAULEY'S HISTORY OF ENGLAND.—Volumes 3 and 4 of Macauley's great work have been received from the publishing house of the Harpers, and are on sale by Messrs Bugbee & Co in this city. The exceeding cheapness of the American republications of this work enables almost every citizen to obtain a copy. It is sold at the low price of 62½ cents per volume —being printed on good paper, and in handsome type, and bound in a very neat style

The two volumes now received embrace the history from the proclamation of William and Mary as sovereigns of England, 1689, to the signing of the Treaty of Ryswick, in 1697. It includes that interesting portion of English history which records the attempts of the Irish Catholics and the Jacobites to overthrow the government of William and Mary—William's expedition to Ireland—the battle of the Boyne —the defeat of James—and the final establishment of the new Dynasty.

Macauley is the most eminent and most fascinating historical writer, perhaps, and we doubt not the sale of these volumes will exceed that of Belmont papers or novels of the day.

The London Times devotes five of its columns to a "preliminary review of the new volumes, and promises a continuance of the subject hereafter. Sixty thousand volumes were sold in London before a page of them had been seen by the purchasers.

HEAVY FORGERIES. Three exchange drawers in New York have just been swindled to the extent in all of $20,000 by an uptown importer, who obtained that amount of exchange and shipped to England by one of the last steamers without paying for it

Another occurrence of the same kind to about the same amount is reported, in which three other houses were victimized. A similar has also recently been carried out successfully at the West, by a party who has been forging the acceptance of Mr. P. T. Barnum to drafts which he negotiated, pocketing the proceeds. The amount of forged paper is variously stated, from $20,000 to $80 000

THE BANKS MAY SUSPEND.—At the recent meeting of the American State Council of Connecticut a resolution was passed, heartily approving the action of the representatives from that State in their efforts to elect a Speaker of the House, and urging them to stand to the end to the position they have taken. The Connecticut representatives vote uniformly for Banks.

More than fifty ballots for Speaker in the House of the New York Legislature have been taken, without making a choice, but a plurality rule was adopted on Tuesday, which has probably secured the election of the American candidate.

LATER. The 101 shall candidate is elected. See item in another column.

A great public meeting has been held at Portland to consider what action shall be taken for the accommodation of the Great Steamer from England which is to be launched in the spring, said, which it is supposed may go into Portland harbor on her first trip to this country. Her tonnage is about 20,000

It was resolved to request the City Government to obtain authority from the Legislature for the City to be allowed to furnish suitable accommodations for the vessel said Steamer or others.

Resolved That the Board of Trade be requested forthwith to enter into correspondence with the owners of said Steamship, and to tender to them in behalf of the City such facilities, in the way of accommodation, as they may require, and to guarantee uniformity from all charges for pilotage, wharfage, dockage, or port charges, and to invite their steamer to this port.

"Citizens Temperance Meetings" of a very interesting character are regularly held at Augusta. They were commenced some two years ago and over a thousand names have been obtained to the pledge

The new Board of County Commissioners met on the 12th and was organized by the choice of Daniel M Haskell Esq., as Chairman. The Board then adjourned, till the 19th of February

It is thought that the steamer Plymouth Rock will be got off in the course of a few days. Laborers have commenced to dig a trench around her

The Oxygenated Bitters advertised in our paper, are very highly recommended by those who have used them.

UNPAID LETTERS.—The provision requiring prepayment of letter postage does not apply to "ship letters."

Southern Doctrine and Democratic Doctrine Now.

In the House of Representatives, on the 7th Mr Walker made the following declaration of Southern sentiment:

What is the prevailing southern opinion on the question of Territorial government?—I take it to be this

I believe that the Territories are the common property of the States as co-sovereigns; that the Territories are the people of all the States equally the right to emigrate, and to take their property of every kind with them; that Congress has no power to prohibit the introduction of that property, whatever it may be, *that people of the Territories have no power, while in a condition of territorial dependence, that the Territorial Legislatures have no power to legislate upon the subject of slavery* that not until the people of the State meet in convention for the purpose of framing an organic law, preparatory to their admission into the Union as a sovereign State, does the power to legislate upon the question of slavery spring into being

Mr Washburn of Maine subsequently replied to this declaration as follows:

WASHBURN, of Maine. The gentlemen from South Carolina [Mr Keitt] has said that Democratic party is sounder now than it ever has been. I have unquestionably true, if the gentleman's idea of soundness be correct. I have no doubt that the whole doctrine of the democratic party is—*because the doctrine of the Cincinnati platform will be the doctrine of the Democratic party it is not competent for the people of the Territories, that is not competent for both combined, to declare that slavery shall not exist within the limits of the United States*

The next doctrine of the Democratic party will be—because it will be doctrine prohibited in the South, as, indeed, it is the doctrine she now holds now—that the people of a Territory even when they come to form a State constitution, cannot declare that slavery shall not exist in such State so formed. And sir, let me say it is a little difficult to understand how it is that the people of a Territory may have the power, when they come to form a State constitution, to decide whether or not slavery shall exist and shall not have such power in their legislative capacity before that time.

The next doctrine of the Democratic party will be, *that it is incompetent for the States themselves, under their respective constitutions, to exclude slavery*, because that would be inconsistent with the great doctrine of equality of rights. Then will ask you whether the citizens of Maine may go into Massachusetts with what they claim as their property, and whether Massachusetts may at the same time, prohibit the citizens of the south from coming into that State with their property—that is, their slaves.

The construction of the Kansas bill which is so loudly claimed by the Southern papers, is this: the clause declaring it the intention of the act not to legislate slavery into any territory or State, *nor to exclude it therefrom*, means that NO POWER IS THEREBY GIVEN TO THE TERRITORIAL LEGISLATURE TO EXCLUDE SLAVERY.

This is the Calhoun doctrine—and it is boldly proclaimed, not only by the southern democracy but by the Southern Know Nothings in Congress and in their papers. It is the doctrine which the *National* northern democrats will be compelled to yield to likewise—and if any platform is adopted at the Cincinnati Convention it will admit this doctrine, in some shape or other

COMPLIMENTARY CONCERT AT NOROMBEGA HALL THIS EVENING as per advertisement, a Concert will be given for the benefit of Mr James T Clarke, well known as the deserving and popular leader of the late Clarke's Brass Band. Some of the best musical performers of the city have volunteered their services, and the programme is said to be an excellent one Messrs Tracy, Hooker, Conley and Burrows, are among the performers. We trust our citizens will give Mr Clarke the benefit of a full house. In regard to his deserving the Journal says

It is well known to many that the beneficiary Mr Clarke came to this city several years ago with some hundreds of dollars, that he identified himself unreservedly with some excellent organizing and keeping together a brass band, which, although it reflected credit upon the city, considering the short time of its organization, did not meet with adequate support, and fell through. Mr. Clarke struggled against the pecuniary embarrassments which surrounded his profession with energy until he could do so no longer, and after several years of labor and encouragement, he finds himself a poor man, from the aid which might so appropriately be rendered him through the avails of this concert, his Auxiliary Benefit tendered him by his personal friends, will not come amiss

HORRORS OF A SOUTHERN WINTER.—The Baltimore Republican relates that the whole settlement of a family, eleven in number, were lately frozen to death, in that city, during the recent cold weather. They lived in a miserable shanty. The mother was nearly dead when discovered, but is recovering. The father had long ago deserted the family.

The pathetic part of the above is spoilt by the following addendum

The father is a *brute*—a perfect *boy*, and has not been seen by the mother for several months"

We learn from the Portland Advertiser that during the year 1855, there were imported into that city 10,263 051 lbs of sugar, and 3,784 216 gals of molasses

We are indebted to Chas. P. Kimball, of the Pony Carrier e Publishing Hall, San Francisco, for files of California and Oregon papers

Col Churchill has been elected City Marshal of Bangor.—*Boston Commercial*

That's news to me. We have not the pleasure of the Colonel's acquaintance

TROUBLE AMONG THE NEBRASKANS.—The Washington correspondent of the Advertiser telegraphs under date of Monday

The Southern supporters of Mr. Richardson for Speaker are in trouble, because he did not on Saturday take as decided ground as Mr. Fuller against the power of Congress to legislate on slavery. Four of his previous supporters accordingly deserted Mr. Richardson, to-day, and consequently leaving a general breaking up the Nebraskans carried an adjournment. They immediately called a caucus which is now in session. If they do not either abandon Mr. Richardson or resolve to adopt the platform immediately, the impression is general that a fierce intestine quarrel will occur.

The following is a statement of the valuation of the real and personal property in Massachusetts, as reported by the Assessors:

Real Estate	$1,107,274,714
Personal Estate	294,919 664
Aggregate,	$1,402,349,803

The taxation on the above valuation is $11,-015 69—or $2.10 mills on $1

The Republican Administration.

The State Administration, of which Anson Burlingame was the head, has terminated, and, at last, the people are soon to learn whether they have gained or lost by the passage of the State Government into new hands. Called into existence by that large proposition of the men of Maine, whose love of Liberty and opposition to Intemperance and crime induced them to forsake both the old political organizations whose longer existence they regarded as inimical to the public good, it has proved faithful to the principle to which it was indebted for its origin, and has not disappointed the expectation of those who rallied on it to manage the affairs of the State ably and well. Sound and conservative men did not break their former associations without the most pressing and justifiable causes, and the Republican party was formed none too soon. It was no unimportant event in the history of Maine, when FORTY FIVE THOUSAND of her citizens declared by their acts that their love of Freedom and hatred of social and public wrongs, were sufficiently strong and sincere to cause them to act together permanently in a new organization.

The Republican party was fortunate in having, at its start, a bold, able and true man as its standard-bearer. More than any other man was Anson P. Morrill instrumental in breaking the ranks of the Democratic party, after it ceased to be useful, and in leading the best of its masses to more congenial associates, and to a more healthful and truly national organization. When the great political crime was committed in 1854 by Congress and the Executive and the thunders of popular indignation broke over the land, those in this State who resolved to administer public justice to the national culprits, and to do their utmost to restore to the country what had been lost, acted wisely in the selection of their candidate for Governor. The movement was one of the people, and not of partizan leaders. Spurning individual dictation, and moved by common impulse, the subscribers opponents of the Nebraska fraud and the friends of Liquor Prohibition, resolved to select their own candidate to receive their suffrages, and to create a party that accorded with their reason and, their sense of right.

Elected by men who acted from principle and conviction, who abandoned the Whig and Democratic parties because they had ceased to be what they had been, breaking through their barriers and discipline, and sweeping over many of their former leaders, he was quite to incur the hatred of the politicians who had lost votes and prestige by his post on the field. With strong difficulties to encounter, with a party to sustain him recently brought together and but imperfectly organized, he has given the State one of the best Administrations it has had since the days of Lincoln. Certainly none within a decade will compare equally with it. His appointments to office have been made with caution, with excellent judgment and with due regard to the public good. His measures have been wise, judicious and just. Not proscriptive in his course of action in respect to those opposed to office by his predecessors his chief aim was to allow the capable and worthy to retain their places, and to remove only such as the public interests seemed to require. Taken as a whole—the Legislature, the Governor and Council, and the members of the Departments—they have been such as to commend them to public regard for character & ability to official duties, and by their personal example in their fellow citizens

The Republican party of Maine may well be proud, that its first year of power has been such as to bear searching criticism as to men and the generality of its measures. Its rapid growth to solid and enduring influence, will mark an era in our State. Defeated for a time by the chaotic and unsound elements arrayed against it in numbers and resolution it was never so strong as it is to day. It is destined to exercise an important influence in years to come. Eminently national and patriotic in all its principles and aims, with the moral sympathies of the community in its favor, with a large majority of the friends of Freedom and social order in the State in its ranks, with a large proportion of the enterprising and active young men enlisted in its support it requires no special discernment to perceive that it is destined to become the controlling party in the State and to play an important part in that great struggle for the restoration of the nation to the administrative policy of the early patriots and statesmen of the country.—*Kennebec Journal*

LEGISLATURE OF MAINE.

TUESDAY, Jan 15

The Senate proceedings were unimportant.

HOUSE.—Mr. Putnam of Belfast, by leave, had on table a bill additional to chapter 298 of the laws of 1850 and to refer disputed cases under said act to an impartial tribunal, and the same was read and referred

On motion of Mr Foster of East Machias the Committee on the Judiciary was instructed to inquire into the expediency of increasing the pay of jurors and witnesses

Mr. Blake, of Bangor presented the depositions of James H Burgess and others, to be used in the Oldtown contested election case

Petitions referred—Samuel Smith and others that certain lots be set off from Wellington to Kingsbury, Samuel Fripp and others of Belfast and Swanville for a law regulating fishing of Goose river, W G Clark, for additional compensation as a member of the board of agriculture for 1855, Robert Glover and others of Hebron, Wm Swett and others of Paris, in aid of Portland and Oxford Central R R, Wm A Head and others, John Bird and others and E W Pendleton and others, all of Rockland, for a new county.

THE SPEAKERSHIP. The Democrats had a caucus on Monday night, and the South Carolina members and others who affiliate with them objected to Mr. Richardson, because in his speech of Saturday, in answer to the interrogatories put to him yesterday were delivered in an impressive and eloquent manner, and increased the attachment of his friends to his nomination. Nothing will induce them to drop him, and yet he cannot be elected by a majority vote, if the contest be continued, and some members think it will be, till the 30th of June, when the fiscal year expires, and when the appropriations for the next year must be made"

THE PROSPECT FOR SPEAKER. Mr. Greeley, writing from Washington on the 13th, says

There are not a dozen now voting for Mr Banks who could be induced while he lives to support anybody else; and it is now understood by his adversaries that he or nobody is to be Speaker of this House. That understanding would have closed the contest weeks ago, as I feel sure it will close it very soon. I cannot foresee what new dodge will be devised to consume time in irrelevant squabbles and stave off an election, but I know that the end will be the adoption of a Plurality rule and his election, and I am confident that a very few days will bring it about.

SHIPWRECK AND LOSS OF LIFE. The vessel which went to pieces on Shag Rock in Light House Channel during the gale on Sunday morning, and supposed to be the packet schooner Lewis, Capt Crowell, from New York for Boston. All the crew of the Lewis were drowned.

Boston Chronicle.

THE BRAIN OF THE INSURANCE. In a recent foreign letter to the N. Y Tribune occurs the following passage

HYDE, by far the greatest anatomist of the age, used to say that he could distinguish, in the darkest room, by a single stroke of the scalpel, the brain of an inebriate from that of a person who had lived soberly. Now and then he would congratulate his class upon the possession of a drunkard's brain, admirably fitted from its hardness and more complete preservation for the purposes of demonstration. When the anatomist wishes to preserve a human brain for any length of time, he effects his object by keeping that organ in a vessel of alcohol.—From a soft pulpy substance it then becomes comparatively hard. But the inebriate, anticipating the anatomist, begins the indurating process before death—begins while the brain remains the consecrated temple of the soul, while its delicate and gossamer tissues still throb with the pulses of heaven-born life. Strange infatuation that to consecrate the godlike! Terrible enchantment which drains all the fountains of generous feeling, petrifies all the tender humanities and sweet charities of life, leaving only a brain of lead and heart of stone!

SANDY RIVER BANK ROBBED.—We learn that Sandy River Bank of Farmington has been robbed of unsigned notes to the amount of between $2000 and $3000 in tens and twenties. One hundred dollars of the stolen notes were recently received from the Suffolk Bank, bearing forged signatures of the President, Samuel Belcher, and the late Cashier Mr Jones, with back dates. No clocks have been forced, and the loss of the notes is not to be accounted for.—*Port Adv*

A singular fact has just been brought to light in London, in regard to gas meters. A careful examination of the gas works in London has established the fact, that the lower the quality of gas, the greater the velocity with which it flows through the metre—that is, the quantity registered is increased in proportion as the quality is deteriorated.—*Exchange*

If this is so, it is rather a hard case for consumers.

We are indebted to Hodgman, Carr & Co's Express, for Boston papers in advance of the mail.

FATAL ACCIDENT. We learn that a son of Mr Joseph Knight, of Troy, was killed on the 11th inst, by a log of wood falling upon him. He lived about two hours after the accident.—*Journal*

OXYGENATED BITTERS

I am author of Statement of Prof C A HAYES M D State Assayer &c implies testimony of the scientific manner in which he analyzed and recompounded and recommended it. Professional Men, as worthy a fair trial in their practice

An opinion having been asked for of me, in consequence of the remarks for preparing Oxygenated Bitters being known to me I express the following, to wit:

The compounding of these Bitters includes those medicinal substances which experience and observation have long resorted to for special action on the system, when deranged by Fever, Dyspepsia, Ague and General Debility resulting from exposure or climatic influence

These are rendered permanent and of common active in their preparation as a consequence of the scientific manner in which they are combined.

It is as a well founded inference, that the preparation used in larger or smaller doses, would prove a valuable tonic or alterative in all cases of debility.

In this medicine no material can be found, by the most delicate chemical tests. C A HAYES M D.

"Hope Never Does"

A remarkable cure of Consumption has recently been effected by this medicine in the town of Chatham in this county and which was related to me by Dr Herrick an eminent physician of that town to whom we have permission to refer.

A young lady who had taken cold and settled into confirmed consumption was considered by her friends as beyond the reach of remedies and she was informed by her medical attendant that all was past. She was induced to send for a bottle of

WISTAR'S BALSAM OF WILD CHERRY

as a last resort. The young lady experienced great relief and two more bottles were successively procured and administered. She is now in the enjoyment of health.

Holloway's Ointment and Pills are an excellent family medicine, and recommend themselves to all sufferers who use them. The ointment is a sure and speedy remedy for all disorders of the liver and stomach, and the pills will effect a perfect cure in every case. In cases of rheumatism, where they are rubbed in with the ointment, they are almost a specific. They are the best and safest remedy for all disorders of the liver and stomach, and in all bilious affections they are invaluable. It is universally admitted that these Pills have never been known to fail to cure those disorders when used in accordance with the directions which accompany each box.

Congressional.

WASHINGTON, Jan. 17.

SENATE.—Petitions from Commodore Stewart, Commanders Lockwood and Long, and Lieutenants Chandler, Hornby, Turner, Bowes, and Ellery, were presented, complaining of the action of the Naval Board.

On motion of Mr. Clayton, the President was requested to communicate all the instructions to Central American affairs not heretofore furnished, and calling for the adjudication of the claims of American Commissioners at Paris on French appropriations of American Commerce.

The presiding officer was authorized to appoint the Committee on Printing.

Adjourned to Monday.

HOUSE.—Mr. Carlisle made a speech to show that the failure to organize grows out of the disturbance of the Compromise Measures and the passage of the Nebraska Act. The latter is giving food to the articles agitation.

Mr. McMullen defended the Democracy from the attack of Mr. Carlisle.

Messrs. Stephens, Z. Chandler, and Washburn, of Maine, debated the question of slavery restriction—replying one to another.

The 116th ballot was taken. Banks 94, Richardson 68, Fuller 32, Pennington 6, Orr, Williams and Potter, one each. Necessary for a choice 102.

Mr. Williams offered a resolution providing to elect a Speaker by plurality, if, after three additional trials, no one shall receive a majority of the whole number of votes. The resolution was rejected, 94 ayes, 106 nays. Adj.

Marine Disaster.

NEW YORK, Jan. 17.

Arrived brig Caroline Kelley, of Frankfort. She was damaged considerably in the gale of the 13th, she had her deck swept, and lost her boats, spars, sails, &c.

Missing Ship.

The ship Hitchcock, 700 tons burthen, under the command of Capt. George Conway, sailed from the port of Savannah on the 26th of November, for Havre, with a cargo of 2250 bales of cotton. The ship and freight money are insured in offices in Wall Street, in this city; 32,000 dollars on the ship, and $14,500 on the freight. She was built in 1847, at Dambricotts, and was considered a good ship.

Railroad Depot Crushed by Snow.

RICHMOND, Jan. 16.

The Depot of the Danville Railroad in this city was, on Saturday night, crushed in by the weight of snow on the roof, and is now a heap of ruins. Twenty-five cars filled with freight were also demolished. Loss sixty thousand dollars.

Iowa Democratic Convention.

CHICAGO, 17th.

The Iowa Democratic Convention, in session at Iowa City, have nominated Geo H. McCleary for Secretary of State, Jas Pollard, Auditor, Geo. Gross, Treasurer, and Jas Baker, Atty General. Four Presidential Electors were nominated, and eight delegates appointed to the Cincinnati Convention. It is understood that the delegates are pledged to support Douglas.

Various Items.

HARRISBURG, Jan. 17.

The dispatch from this place of January 14th, stating that there was no regular candidate for the United States Senatorship against Mr. Bigler, was incorrect. Hon. E. Joy Morris, late Minister to Naples, received 43 votes, being the whole strength of the American and Republican members, except the one cast by Mr. Morris for John C. Heinker. Mr. Morris was unanimously nominated in both the Republican and the American caucus, and was unanimously sustained on the day of election. The anti-National-Administration party in the Legislature of Pennsylvania is perfectly united.

CAZIC, ILL., Jan. 17.

There is more ice in the Ohio river than was ever before known. The river on this side is frozen in this vicinity more than a hundred feet from shore.

The Wakemanites.

NEW HAVEN, Jan. 17.

The Grand Jury this afternoon have indicted Samuel Sly, as principal, and Rhoda Wakeman as the Prophetess, and Thankful S. Hersey, as accessories to the murder of Justus Mathews. They will soon be tried. Abigail Sables and Joseph Jackson were this eve discharged from prison. The prophetess wept like an infant on being told that she must remain. Hersey said positively to the prophetess, "They little know what they are about in shutting up that person here."

Markets.

NEW YORK, Jan. 17.

Very little doing in flour both for export and home consumption, prices unchanged. 7,87 a 8,00 State; 7,87 a 8,00 common to fancy; and low grades of extra Michigan, Indiana, Illinois, Wisconsin and Ohio 8,75 a 10,75; extra Genesee and Canadian 8,00 a 9,75; rye flour and corn meal quiet.

Wheat in better demand for export, and a slight advance. 1,71 a 1,85 for inferior to good mail, 1,90 a 1,93 red Tenn.; 2,00 a 2,05 for common to good white Canadian.

Rye steady, 1,29 a 1,30.

Corn firm—a limited supply. 84 a 90 for new yellow and white southern; 91 a 93 for mixed western.

Oats dull and price unchanged.

Pork better. Demand and market firmer.—1700 mess, 14,50 prime; closing buoyant.

Beef unchanged.

Dressed Hogs 7¼ a 7¾; Bacon, sides firmly held; Cut meats in active demand at full prices; 7¾ a 7¾ for shoulders; 8¾ a 9¾ for Hams.

Lard steady, 11¾ a 11¾.

Butter dull at 17 a 22 for Ohio; and 22 a 27 for state.

Cheese steady, 9 a 10¾.

Leather firm.

Fish dull.

Coffee dull. Rio 11¾; Java 13 a 14¾.

Sugars quiet and easier. New Orleans 7¾; Porto Rico 8; Havana 8 a 8¾.

Molasses steady. New Orleans 43.

FOUNDERED AT SEA.—The packet ship St. Dennis, from New York for Havre, foundered at sea on the 5th inst.,—carrying down Capt. Follansbee, his third mate and 20 of the passengers and crew. Eleven of the crew were saved in a boat.

The last that was seen of the Captain, who refused to leave his ship, though begged so to do by all, he was standing on deck wiping up his watch, when she went down about ten minutes after the boat left.

NEW YORK RECIPROCITY.—Orville Robinson, the anti-shell candidate was chosen Speaker on Wednesday.

Mr. Bailey, the Hard Democratic candidate for Speaker, withdrew as a candidate, and afterwards the Republicans and Anti-Shell Democrats agreed upon Mr. Orville Robinson of the latter party, and he was chosen Speaker.

Governor Clarke delivered his message to both houses. His financial statements are not very favorable; there being a deficiency during the financial year of upwards of $250,000.—The surplus canal revenue over expenditures is $1,650,000. After discussing the various local topics the Governor closes by an allusion to the Kansas question, denouncing in strong terms the overthrow of the Missouri Compromise, and expressing the hope that the voice of New York will again, as heretofore, be unanimous in asserting the Jeffersonian policy of restricting slavery and extending freedom.

FIRE IN BOSTON.—The Liquor and Cigar Store of Mr. Kildrem, 67 and 69 Elm Street, was burned with nearly all the stock, on Wednesday night.

THE FILIBUSTERS IN NEW YORK.—In the U. S. Circuit Court, Judge Hall presiding, the following persons were arraigned, having been indicted for a violation of the neutrality laws—Daniel H. Bimingham, Addison Farnsworth, Geo B. Hall, Andrew Morrison, James H. Malle, John Creighton, Francis O'Keeffe, Wm. Lister, Charles Waters. They late all pleaded not guilty. Parker H. French was arrested, but subsequently discharged without bail, Parker H. French entering into recognizance of any kind.

A resolve making the Age State paper passed the Senate on Wednesday.

Crystalotype Portraits.

DAGUERREOTYPES can be accurately copied by the new Photographic process, enlarged to any required size, and beautifully colored in Oil, Water, or Pastel. Portraits are obtained from the life by this process, requiring no longer sitting than for a common daguerreotype, thus avoiding the serious inconvenience and fatigue of long sittings. Plain daguerreotypes, a new article of unsurpassed richness and durability, are now, for the first time, in Bangor, offered to the public. Their great brilliancy and permanency renders them peculiarly suitable for Pins, Rings, &c. The Public are invited to call and examine specimens at HARDY'S Portrait Gallery, near Main-street, a short distance below the Bangor House.

Non-Explosive Camphene & Fluid

LAMPS and CANS.

HAVING purchased the Patent right for the State of Maine for the above Lamps, I am now prepared to offer them to purchasers in every variety, adapted to the use of Parlors, Churches, Stores, Factories, Vessels, Steamboats and Railroads.

These Lamps are constructed on scientific and philosophical principles, and are the *only* ones in operation against explosions from Camphene and Burning Fluids, being made of the most durable material, not subject to accident from breakage or corrosion—will burn freely without smoke, giving an equal and steady light, (the nearest to gas ever produced).

The above Lamps have proved, after three years trial, to be the best Lamps in use, giving universal satisfaction, and burning perfectly safe.

These Lamps will be sold at wholesale or retail *as low* as the ordinary Camphene and Fluid Lamp, by J. S. RICKER, 5 Main Street, Bangor, Me., dealer in Lamps, China, Glass, and Crockery Ware.

Through Tickets including transit of the Isthmus, via Panama R. R.

By order of the Postmaster General, the United States Mail Steamships hereafter despatched from New York direct to Aspinwall on the 6th and 20th of each month

Passengers landed at the Railroad Depot, Aspinwall, and conveyed across to the Pacific Steamers *without delay or extra expense!* This is the *only* line giving entire Through Tickets, including *meals* on the Isthmus.

Transit made in *four hours, entirely by daylight*, thus avoiding the great exposure by night in open boats to fever and ague and 200 miles of dangerous lake and river navigation over rocks and shoals.

Arrangements have now been completed so that the regular U S Pacific Mail Steamer will leave Panama for San Francisco immediately on arrival of the Atlantic Mails and passengers thus securing passengers by this Mail Line a *sure* and *short* passage without any detention on the Isthmus

Tickets must be signed by one of the Company's Agents before they will be recognized by the Agent at Panama and Tickets thus signed can be obtained of the *only authorized Agent* for the Atlantic and Pacific Mail Steamship Companies, in this city O L BARTLETT, Agent

Purifying the Blood removing all diseases arising from Excess of Mercury exposure and imprudence in life chronic constitutional diseases arising from an impure state of the Blood, and the only reliable and effectual known remedy for the cure of Scrofula Rheum Scald head, Ulcerations of the Throat and Legs Pains and Swellings of the Bones, Ulcer, Pimples on the Face, and all scaly Eruptions of the Skin.

It is gratifying to the proprietor of these medicines to be able to state that it is now nearly three years since they were first introduced, during which time they have been extensively used in various parts of the United States and have proven to be efficient and practitioner the highest degree of satisfaction in the vast number of cases in which they have been employed whether in town country hospital, or private practice, they have invariably given the most decided and unequivocal satisfaction, and produced the most salutary and beneficial effects. Numerous letters have been received from the most distinguished physicians in the country, and from the first members of the medical colleges, recommending in the highest terms the value of these medicines and their superiority over all other preparations for such complaints as the proprietor recommends. Numerous preparations of Sarsaparilla and Buchu and various modes of preparing them have been given, all of which of course will differ according to the mode of preparation which each individual may adopt

These medicines require considerable care in the preparation and the employment of different advantages to secure success. Many persons who are extensive manufacturers and in consequence are frequently improperly made and not sufficiently strength impaired, it not rendered entirely impure, by the murderous and unskillful management of those unacquainted with pharmaceutical preparations. It is therefore, of the highest consideration and importance to the public and to the afflicted that there should be standard preparations of long established and possessing the most advantageous. To effect this and obviate the objections alluded to I have made a number of experiments to discover the most valuable medicines for extracting the virtues of the Sarsaparilla and the Buchu leaves, and to procure the most elegant form for their exhibition. The experiments have resulted most favorably and it is with much pleasure I now offer to the public and the faculty my Compound Fluid Extracts, which contain all the virtues of the articles they are represented to be made from in a highly concentrated form, and are the most active preparations which can be made. Two tablespoonfuls of the Extract Sarsaparilla added to a pint of water is equal to the Lisbon diet drink, and one bottle thereof equals in strength one gallon of Syrup Sarsaparilla or decoction, as usually made

KENNEDY'S

MEDICAL DISCOVERY

The Greatest of the Age!

DR. KENNEDY, of Roxbury, has discovered in one of our common pasture weeds a remedy that cures *EVERY KIND OF HUMOR*, from the worst Scrofula down to a common pimple. He has tried it in over eleven hundred cases, and never failed except in two. He has now in his possession over two hundred certificates of its value all within twenty miles of Boston

Two bottles are warranted to cure a burning sore mouth

One to three bottles will cure the worst kind of pimples on the face

Two to three bottles will cure the system of ticks

Two bottles are warranted to cure the worst cases of erysipelas.

Three to five bottles are warranted to cure the worst cases of erysipelas.

One to two bottles are warranted to cure all humors in the eyes

Two bottles are warranted to cure running in the ears and blotches in the hair

Four to six bottles are warranted to cure corrupt and running ulcers

One bottle will cure scaly eruptions of the skin

One to three bottles are warranted to cure the worst case of ring worm.

Two to three bottles are warranted to cure the most desperate cases of rheumatism

Three to six bottles are warranted to cure saltrheum

Five to eight bottles will cure the very worst case of Scrofula.

A benefit is always experienced from the first bottle, and a perfect cure warranted when the above quantity is taken

Nothing looks so improbable to those who have in vain tried all the wonderful medicines of the day as, that a common weed growing upon the pastures and along old stone walls, should cure every humor in the system yet it is now a fixed fact. If you have a humor it has to start. If there are no ifs nor ands about it as sure as some cases but not yours. He has peddled over a thousand bottles of it in the vicinity of Boston, and knows the effects of it in every case It has already done some of the greatest cures ever done in Massachusetts. He gave it to children in a year old, to old people of sixty, to young and middle aged, to many looking children whose health was spoiled and ruined by bad humors, restored to a perfect state of health by one bottle.

To those who are subject to sick headache one bottle will always cure it. It gives great relief in catarrh and dizziness Some who have taken it have been costive for years and have been regulated by it Where the body is sound it works quite easy, but where there is any derangement of the functions of nature it will cause very sensible feelings, but you must not be alarmed—they will disappear in from four days to a week—but where is never a bad result from it—on the contrary, when that feeling is gone you will feel yourself like a new person I heard some of the most extravagant encomiums of it that ever man listened to.

No change of diet is necessary Eat the best you can get and enough of it

Marriage,

PHYSIOLOGY OF MARRIAGE, by an Old Physician, at A. BARTLETT'S, 2 Harlow Block.

The Great European Cough Remedy.

Important to the Consumptive and the Public generally! The Celebrated

Universal Cough Mixture!

IS a safe and effectual Remedy for Coughs of every description which of children or adults, of recent or long standing

PREPARED ONLY BY

REV WALTER CLARKE,

Sole Proprietor, Cornwallville, Maine.

Within the last twelve months thousands of bottles of the Universal Cough Mixture have been sold in the State of Maine alone, and everywhere its extraordinary power in relieving and curing diseases of the Chest and Lungs, is gratefully acknowledged, and especially in cases of obstinate and long standing Coughs, it speedily allays the unpleasant sensations in the throat which excites coughing, it promotes free and easy expectoration, and by removing the irritating cause of the cough, it frequently enables the sufferers to enjoy natural and refreshing sleep who for weeks had been deprived of that blessing

Sold in trial bottles, 25 cents each, large bottles, each containing the quantity of four small ones, 75 cents each

Extract of a letter from Daniel Adams, Esq., of Bowdoinham, Maine

BOWDOINHAM, FEBRUARY, 17th, 1853.

To Rev Walter Clark Dear Sir—I feel bound to recommend to you and the public the Universal Cough Mixture which I bought of you at Cumberland and the desired effect in my case. I had been afflicted with a cough for two years—that bottle entirely removed it.

From Rev Jesse Hoyt, Lewiston Falls

RAY CLARK—Dear Sir—I have used the Universal Cough Mixture which you sent with me, and find—and I have several times recommended it to others, and it has been found perfectly satisfactory in the operation. One lady, who had a cough for long standing, attended with tightness of the chest and shortness of breath, so that she was laid aside from business, purchased one large bottle and before she had taken one third of it was entirely cured, and has had no cough since. The above are the best testimonials in the world, and cannot be recommended too highly.

JESSE HAYES

From Mr Fletcher Chick, agent for North Dixmont, Maine

DEAR SIR—A number of cases of most extraordinary cures have been effected by your Universal Cough Mixture in this place Several with bad coughs of 4 years standing, and others with a have been cured in a few months with little or no medicine, after having taken several bottles of various other Cough Mixtures.

From Mrs Hubbard, Thorndike, Me

FEBRUARY 1854

To Rev Walter Clark Dear Sir—This certifies that I have used one bottle only of Universal Cough Mixture for a distressing cough and soreness in the lungs I had previously taken several kinds of medicine and had been under the care of several physicians, without obtaining the least relief, happily your Universal Cough Mixture was recommended to me, which I obtained of Mr Alfred Ayer, of this town, and before I had taken one bottle I found relief, and by the time I had taken two bottles I was entirely cured

TESTIMONY FROM MAINE

Cape Elizabeth, Cook's Corner, Maine, July 16, 1855, says: "I was taken sick one year ago last April, upon my passage from Havana to Charleston, S C. At the latter place I took medicine and procured a physician, but for ten days could obtain no relief, no sleep or appetite. At last I took up a newspaper having your advertisement of Hoofland's German Bitters in it, I sent for some immediately. This was about 10 o'clock, at 11 o'clock I took the first dose, and another at 1 o'clock. The effect was so rapid on me that I had a good appetite for supper, and rested well that night and the next day found me a well man. I have not been without your medicine since having been sailing between Baltimore, Charleston and the West India Islands ever since. I have now given up going to sea and reside in this place where you should have an agency, as you could sell large quantities of it."

Jos. B Hall & Co, Presque Isle, Aroostook Co., Maine April 2, 1854, say: "We herewith send you a certificate of a cure performed by the use of *only one bottle* of the German Bitters. We think Mr. Clark to be a man of veracity, and have no doubt of the truth of his story."

Messrs. Jos B Hall & Co.—Gentlemen—In answer to your inquiries I will state that my daughter, aged about 16 years, has been complaining of a pain in her side for six or seven years, and about the first of January last was taken down and confined to her bed. The pain in her side was very severe, besides being troubled with pain between her shoulders and under breast. From reading a number of cures performed by "Hoofland's German Bitters, I was induced to try them in her case, and sent to your store and purchased *one bottle*. She had taken it but a few days when she began to be better, and now after taking *only one* bottle, she is enjoying better health than she has for years.—She feels no pain in her side or in any part of her body, and attributes her cure *entirely* to the German Bitters. WILLIAM CLARK.

Salmon Brook, Aroostook Co, Me

You should bear in mind that these Bitters are *entirely vegetable*, thereby possessing advantages over most of the preparations recommended for similar diseases.
